VALLEJO TAKES JEFF INDIANS FOR CLOSE WIN

Local Football Team Is Making Rapid Progress To Victories

Before long, if the Jefferson Indians improve as steadily as up to date, they will be dangling their opponents' scalps on a crowded string. Jefferson's second practice on the Vallejo gridiron wasn't a victory, but it showed the strength of their offense.

Coach Mathews started the second team, but a more balanced Vallejo eleven shoved them around for a quarter and broke through for a touchdown. The coach then called the regulars into the fray. With repeated line plunges by Wright and Compagno the Indians moved the ball to the 16 yard line, from which position Stanley Simpson skirted the end for the touchdown.

Vallejo's break came with a recovered fumble on the Jefferson 10 yard line, from where the Apaches plowed through to ring up their second touchdown. The rest of the game was played with Jefferson trying to retaliate, but Vallejo successfully protecting her extra points. With an injury to Simpson and Olson, a vital blow was struck to Jefferson's scoring chances.

Outstanding in the game were Dick Wilson, Ayres, and Roy Wilson. Stanley Simpson will soon be playing again, but it is believed that Olson will be out for the balance of the season.

That thrift is not an outgrown virtue is being emphasized in addresses by members of the Federal Home Loan Bank Board in various sections of the country. It is true enough that on account of measures recently adopted by national lawmakers for the protection of the unemployed and the aged that a notion has gotten abroad that it is not any longer necessary to put aside savings. The campaign of the Federal Board is aimed to disabuse people of that idea.

It is pointed out that workmen's compensation laws, sickness and unemployment insurance and old age pensions are intended to provide only minimum substance to the beneficiaries.

Dr. H. E. Hoagland, a member of the Loan Board, recently said:

"Even should all of the programs of the federal government be made completely effective, the combined benefits would be insufficient to meet the needs of self-reliant Americans, who are able by their own thrifty habits to make more ample provision for themselves."

The Federal Home Loan Bank Board administers and supervises the activities of the Federal Home Loan Bank system, the Federal Savings and Loan Insurance Corporation and the Home Owners Loan Corporation, and controls the organization of federal savings and loan associations.

Liberal opinion has been given no setback by the failure of the recent Congress to do much to show its members realize the modern trend.

The fight for the reorganization of the United States Supreme Court goes right on. The President signed the bill making a few and unimportant changes in the procedure of the lower courts. But he signed it with extreme reluctance. His determination to keep up the battle for the unpacking of he highest tribunal is shown in the following words:

"No longer must the federal government stand idly by, a helpless spectator, while Acts of Congress are stricken down by the courts."

* * *

President Roosevelt is not making any peace overtures to the reactionaries in his own party and there is every evidence of undeviating allegiance in the future to all parts of his liberal program.

Close observers point out that the late utterances of the chief executive have been notable for two things. One is that they bring out more and more openly a realization of the alliance between big finance and the lawyers of corporations. Another is that they stand squarely for he principle of majority rule as against minorities in and out of the government who are trying to obstruct the processes of social change.

Our "chief" is a real democrat. He has perfect confidence in the people. He leaves the final decision on all vexing questions to the electors of the country.

It is expected the federal electrification program in rural areas will be completed by 1945.

Citizens Becoming Language Minded

San Franciscans and citizens of surrounding areas are becoming foreign language minded, judging from the large number of adults attending the classes of the Works Progress Administration, education program of the State Department of Education. Enrollment for the fall term far exceeds all previous registrations.

Instructions are being given in French, German, Italian, Russian and Spanish in 33 classes, located in convenient neighborhoods throughout the city. These classes, which are free to the adult public, meet in the daytime as well as at night. Advanced and elementary training in the languages are given. Details of class hours and location can be obtained from the office of the program, 216 Market street, Douglas 7119.

Football Season At Junior College

San Mateo Junior College opens its 1937 football season, Friday evening, when it faces San Francisco State College on Roberts Field, in San Francisco. A fairly green Matean team, prepped by only twelve days of practice, will face a veteran four-year college that lost only two men from its 1936 squad.

One thing cheers the San Mateo student. His football turnout is the best in years from the standpoint of numbers, so the team is assured of reserve strength which was lacking last year.

PTA CONGRESS MET THIS WEEK IN LOS ANGELES

Plans Made For New Radio Forum Over NBC Network

Monday was given over to committee meetings; Tuesday and Wednesday, the regular board meetings, with committees reporting.

Problems which perplex modern boys and girls, and how their parents and teachers may aid young people to develop into useful citizens, will be considered in a weekly Parent-Teacher Radio Forum, to be broadcast during the coming year by the National Congress of Parents and Teachers, in co-operation with the National Broadcasting Company. Programs will be broadcast each Wednesday, from 4:30 to 5 p. m., E. S. T., over the Blue Network of NBC, beginning October 13, 1937, and continuing through April 13, 1938.

In developing the general theme, "Youth In A Modern Community," specialists in health, education, recreation and allied fields will present their views and suggestions on P. T. A. activities in behalf of children and youth, as they relate to the following sub topics: 1. Getting ready for school; 2. The home's contribution; 3. From thirteen to twenty; 4. The arts of leisure; 5. The P. T. A. looks forward.

"The California Congress of Parents and Teachers believes that the foundation of all peace depends upon the individual state of mind, and that the greatest factor in promoting world peace is an understanding of the home and community influences that make for peaceful living.

"We define peace to mean not the cessation of strife, or armed conflict between nations, but rather the ability of individuals to understand each other, to make satisfactory adjustments, to live well together.

"The policy of the congress does not permit affiliation of congress units with any organization for the promotion of peace, nor the adoption in toto of the program of any organization, but itself offers an outline of work consistent with the

Pupils Elected Student Officers

The teaching of governmental organization has become a living, vital activity for students in the Woodrow Wilson Elementary School. Actually participating in the function of the three departments of government, the students have a president, who was elected by the electoral college in the person of the eighth grade; a legislative department composed of the monitors for yard, hall and class rooms, and a judicial department composed of students who wish to determine any specific school problem.

Interclass room competition is representative of the states in the union. in some of the class rooms, particularly the high eighth grade where an intensive study of government is prescribed by the county course of study, the group has a class room organization composed of the following class room officers: President—Annalaise Trautmann; Vice President—Jean Hanselman; Secretary-Treasurer—Eleanor Dyer; Class Representative—Norman Wiseman.

Lesson Sermon Of Christian Science

"Matter" will be the subject of the Lesson-Sermon Sunday, September 19, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "Turn ye not unto idols, nor make to yourselves molten gods: I am the Lord your God" (Lev. 19:4). Other Bible citations will include: "O Lord our God, other lords beside thee have had dominion over us: but by thee only will we make mention of thy name. They are dead, they shall not live; they are deceased, they shall not rise: therefore hast thou visited and destroyed them, and made all their memory to perish" (Isa. 26: 13, 14).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine Science deals its chief blow at the supposed material foundations of life and intelligence. It dooms idolatry" (p. 535).

Friend Gives Flag To Girl Scout Troop

One of the big moments for the members of Daly City Girl Scout Troop No. 2 occurred, Friday evening of last week, at the Grace Church of the Nazarene, when the Girl Scouts were presented with their official troop flag and a beautiful silk American flag. The American flag was a gift from their friend, Mrs. Schlappai, of 64 Los Olivos avenue. Owing to illness Mrs. Schlappai was unable to present her gift in person.

Now, that the Girl Scouts have their own flags and staffs, they are looking forward to joining in the comradeship of marching with others in the nation-wide peace demonstration planned for the coming Armisttice Day. With nations lit by the folly of war, the Girl Scouts feel it their duty to band their youthful strength with the advocates of peace.

The girls from Troop No. 2, wish to extend their thanks to the citizens of Daly City for the splendid co-operation in aiding them to make their recent doughnut sale a financial success.

LITTLE DADDY

OBSERVATION OF VARIOUS THINGS IN OUR CAPITAL

Today Is The One Hundred And Fiftieth Anniversary Of The Adoption Of The Constitution

(By Hart Goodrich)

What a reason this nation has for rejoicing at the one hundred and fiftieth anniversary of the adoption of our Constitution. In every continent in the world, except ours, dictatorship and autocracies challenge and trample on democratic principles. We have grown and prospered, following its rules of playing the game in a democratic way. And the finest attribute it has is that it never grows old or out of date, since its secret of youth lies in the fact that we, the people, can make it what we will.

A grave national emergency existed when the Continental Congress, in May, 1787, issued the call for the Constitutional Convention to meet in Philadelphia. The Articles of Confederation had proved woefully inadequate as a foundation of government and there was serious danger the thirteen states would divide into several autonomous groups.

Consequently, speed and compromise was the order of the day when the 55 soldiers, lawyers, planters, merchants and judges sat down to draft a Constitution.

The principal controversy centered around the ambitions of the so-called large states—Massachusetts, Pennsylvania and Virginia—and the fears of the small states, whose delegates were determined not to submit to the domination of that triumvirate.

The plan of the large states was submitted by Edmund Randolph. It would have provided a Congress of two houses, the membership in each to be proportionate to population, with authority to select a President. This plan, with a little aid from representatives of small states, would have given the three large ones absolute control of national politics. The plan of the small states was submitted by William Paterson of New Jersey, who proposed a Congress of one house, each state voting equally in it. A way out of the seemingly hopeless deadlock that ensued was found when William Samuel Johnson of Connecticut proposed the plan making the representation of the states equal in the Senate and proportional in the House.

The Constitution was adopted only by compromise, and has had such a healthy life only by continual compromise between states, political parties, races and creeds. As long as this healthy spirit of willingness to "shake hands" over the wall of political, economic and religious differences exists our Democracy cannot fail to prosper.

PRACTICE WHAT YOU PREACH

The philosopher who argues that wars are necessary to reduce the population should be included in the surplus.

Judge Bans Wedding Of Pair, 15

For the second time in two months, the law stopped the wedding of a San Francisco boy and girl, both 15, when a court order preventing their marriage was handed the pair instead of a marriage license. Cecilia Ramirez, high school junior, and Manuel del Llano were refused a permit to marry last July because Superior Judge George Steiger was "uncertain about their financial future." Since that time Manuel has had a steady job playing in a cabaret orchestra. The court order said the judge desired to make a further investigation. The couple had consent of both parents to marry.

STAKES PERFORMERS COMING TO TANFORAN

By J. W. MARCHBANK

Horses will be arriving at Tanforan before many more days. One of the first strings to come will be that of the A. C. T. Stock Farm Stable, nom de course of Major Austin Taylor of Vancouver. Trainer Darrel Cannon discovered, along with other handlers of good horses, that they cannot be campaigned winter and summer. So he rested up his thirteen head at Santa Anita following the windup of California racing last spring for the fall sport in this state. At times the horses run simply as owned by A. C. Taylor.

That Indian Broom, Special Agent, Whichcee, Red Ensign, Time Flight and the others will be "in the pink" for the track combats is certain. The gallopers have class and may be depended upon to put up stiff battles with the Eastern contingent, no matter how clever the invaders may be.

Conditioner Cannon wrote in early for stabling accommodations, saying he invariably did his training at Tanforan when the racing was on in this section, even if the sport opened elsewhere. He finds the conditions at Tanforan exactly to his liking.

Each fall Major Taylor forwards entries to the Tanforan Futurity. The candidates for the two year old stakes are foaled at his own nursery up north. For the renewal of the race in 1939, to which nominations recently closed, he named sons of Hey Diddle Diddle, Plucky Play and Wahmonie. He has selected his broodmares carefully and eventually may breed a colt that will carry off the honors in the Tanforan Futurity from fleet youngsters reared in Kentucky, Virginia, and other Eastern states.

Hey Diddle Diddle, a bay son of the Epson Derby winner Sunstar, was one of the fastest horses that ever was saddled at Tanforan. He has not had many opportunities in the breeding paddock, but has succeeded in sending some winners to the races. It has long been acknowledged that speed is the first requisite of a runner and the progeny of "Diddle Diddle" should have plenty of it.

Plucky Play ran away from Alexander Pantages one day in the feature at Tanforan, causing a mild sensation by his performance. Later on he demonstrated against the best in the East that his victory was no flash in the pan. The members of the first crop of Plucky Plays are now yearlings.

California Key Game For Gaels, Says Madigan

Early season workouts at Moraga, Cal., brought to light a heavy St. Mary's team which will concentrate on an unusual passing attack during the fall grid season. Short gainer passes by a number of good hurlers in the heavy Gael backfield will be stressed mainly, it was revealed. St. Mary's is pointing to the California opening game, September 25, as its hardest battle, Coach Edward ("Slip") Madigan announced. "If the boys can take that hard Cal crew, they'll be in fine mental shape for the rest of the season," he said. Pictured here is part of the enthusiastic Gael squad carrying "Slip" about on their shoulders, indicating that all is well at Moraga. Madigan's left hand clutches Right End John Giannon's jersey, while Danny Keran (5), guard, bolsters the Madigan anatomy from the other side.

NOTED JURIST GIVES TALK ON NARCOTIC EVIL

Judge Twain Michielsen Is Heard In Interesting Topic At High School

An interesting address on narcotics was delivered by Judge Twain Michielsen last Tuesday evening in the Little Theater of the Jefferson Union High School. Judge Michielsen has spoken on this subject before 125 organizations in San Francisco, the student body of Burlingame High School and different V. F. W. groups. At all times the subject seemed to be well received by the public.

He discussed the different kinds of drugs, how they are grown, used, and their effects. He pointed out the fact that for the vast quantities of narcotics raised by the Japanese, San Francisco is the chief port of entry to this country. Also in San Francisco 74¾ per cent of all criminal cases are found to be drug addicts, while in Los Angeles, a larger community, only 10½ per cent are users of narcotics.

He described the Marihuana plant as growing like a weed, having nine leaves which spread fan shape. The leaves are a dull green color. It is impossible to cure a drug addict, as their brain suffers a permanent impairment. The drug burns the brain serious consequences follow. something bad is bound to happen. Their standards of morality are lowered and they steal or kill in order to get money to purchase drugs with which to satisfy their dope runger. Drugs bring slow death or insanity and individuals using them lose pride, home and integrity.

Judge Michielsen stated that the best way to halt the march of dope fiends is to prevent giving suspended sentences to drug addicts who are found guilty of violating the drug act. He also stated that each of us should study upon the subject and acquaint ourselves further with this menace, which is a constant threat to the youth of the nation.

Mrs. Nellie Jensen, who is president of the Ladies' Auxiliary of the Old Glory Post No. 2044 of the V. F. W., under whose auspices the lecture was given, expressed her thanks to Judge Michielsen for his coming here to deliver such an interesting and instructive message.

Frosh-Soph Team Loses to Vallejo 'B's'

Opening their schedule with a tough game with the Vallejo reserves, the Jefferson Frosh-Soph team made the trip to Vallejo last Friday night for their first game of the season with the Vallejo "B's."

During the first period of the game the Jefferson Frosh-Soph team seemed to be holding the Vallejo "B's" steady line plunging, but the line was slowly weakened by this intensive battering so that it finally broke down, letting Vallejo through for a touchdown.

In the second period of the game the Vallejo "B's" again succeeded in breaking up the Jefferson defense, to score a second time. The Jefferson Frosh-Soph then retaliated with line plunges by Lemos and Christen and passes by Guisti, carrying the ball to the Vallejo 1 yard line. With a few minutes remaining in the game the Jefferson Frosh-Soph tried bucking the line in an attempt to score, but a stone wall was met every time; thus the game ended with a final score of 13 to 0.
